## PROFESSIONAL SUMMARY

Frontend Developer with over 6 years of experience building high-performance web and desktop software solutions. Specialized in architecture modernization, database optimization, and multithreaded programming for industrial environments. Focused on clean code and agile methodologies.

## WORK EXPERIENCE

### Inbropi — Frontend Developer | January 2024 – September 2026

- Built a reusable UX/UI component library using Vue 3 and TypeScript, accelerating overall team delivery timelines.
- Migrated legacy architecture from Options API to Composition API, reducing code duplication and streamlining composable reuse.
- Reduced PostgreSQL query response times by 75% through targeted index optimization and improved data structures.
- Rewrote critical backend endpoints in Node.js to enhance API modularity and execution speed.
- Developed SPAs using Vue 3, Angular 18, and React; coordinated continuous releases in Jira and Slack following Scrum methodology.
- Prototyped and animated interactive user interfaces in Figma and Adobe XD, integrating storefront solutions with Shopify and WordPress.

### Tecnología Avanzada en Control y Diseño — Frontend / Full Stack Developer | 2022 – 2024

- Refactored and maintained legacy software systems, significantly improving codebase stability and maintainability.
- Developed high-speed desktop applications using VCL in C++ Builder.
- Designed and optimized relational databases in MySQL and SQL Server tailored for high-concurrency environments.
- Built native web interfaces using HTML Web Components, CSS, and modern JavaScript without external dependencies.

### Procesos de Control y Pesaje — Backend Developer | 2020 – 2022

- Architected and implemented industrial traceability systems integrated with Rice Lake weight indicators.
- Maximized data processing performance using multithreaded architecture and low-latency TCP/IP socket communications.

## EDUCATION & CERTIFICATIONS

- **B.S. in Computer Systems Engineering** — Instituto Tecnológico de Celaya
- **UVEG Certifications:** C/C++ Programming | Networks & Communications | Information Technology for Business
- **Industrial Safety Certification** — SIGASH

## TECHNICAL SKILLS & COMPETENCIES

- **Languages & Frameworks:** C++, TypeScript, JavaScript, Node.js, Vue 3, React, Angular 18, HTML, CSS, Vite, Vitest.
- **Databases:** PostgreSQL, MySQL, Microsoft SQL Server.
- **Architecture & Networking:** Microservices, Layered Architecture, Event-Driven, MVC, TCP/IP Sockets, Multithreading.
- **Tools & Languages:** Git, Scrum, Jira, Figma | Spanish (Native), English (Professional / Technical).
